SKILLS

Language: Java, SQL

Backend Technologies: JDBC, Servlet, RESTful APIs

Framework & Libraries: Spring Boot, Spring (Core, MVC)

Database: MySQL

Tools: Git, GitHub, Eclipse, Postman

Soft Skills: Communication, Team Collaboration, Adaptability

WORK EXPERIENCE

HEFSHINE | Back End Developer Intern **June 2025 – Present**

- Designed and implemented RESTful APIs using Spring Boot for core application modules.
- Optimized MySQL database schemas for faster query performance and efficient data storage
- Integrated backend APIs with frontend components to ensure seamless data flow.
- Used AI-assisted tools (ChatGPT) for debugging, SQL query optimization, and API design suggestions.

EDUCATION

Sinhgad Institute of Management and Computer Application, Pune **2024 - Present**

- Master in Computer Science | S.P.P.U. | SGPA: 7.62

Government Holkar Science College, Indore **2021 - 2024**

- Bachelor of Science (C.S) | D.A.V.V | CGPA: 6.88

Alpine Public H.S School, Indore

- **12th,** PCM, 73.80% **2020 - 2021**
- **10th,** General, 73% **2018 – 2019**

PROJECT WORK

Library & Productivity SaaS Platform | Java, *Spring Boot, React, MySQL* Link
Developed a SaaS platform for seat booking and Pomodoro-based productivity tracking. Implemented secure role-based authentication (Admin & Customer) using JDBC with prepared statements to ensure data integrity, prevent SQL injection and enabling a scalable and modern user experience.

Electricity Billing Management System | Java, JDBC, MySQL Link
Developed a desktop-based billing application using Core Java, following OOP principles and MVC architecture for a structured and maintainable system. Designed a dynamic slab-based billing system to calculate electricity charges based on unit consumption, including taxes and bill generation features.

Employee Management System | Java, Spring Boot, React, MySQL Link
Developed a full-stack application using React (frontend) and Spring Boot (backend).
Implemented RESTful APIs to perform CRUD operations for efficient employee management.
Integrated frontend and backend using HTTP requests and utilized a relational database for data persistence.

ACHIEVEMENTS & CERTIFICATIONS

- Java Programming Certification – Simplilearn
- Completed 2 years of service and leadership activities under the National Service Scheme.
